

## Musgrave rises on gold hits

SHARES in Musgrave Minerals gained ground today after the company released more high-grade assays from the Break of Day prospect at Cue in Western Australia.

Individual 1m split samples from reverse circulation drilling returned 2m at 25.2 grams per tonne gold from 96m, including 1m at 46.7gpt gold; and 8m at 4.9gpt gold from 132m, including 2m at 22gpt gold.

Mineralisation remains open down-dip and up-plunge with further drilling to kick off next month.

The company also drilled three RC holes at the Hunky Dory prospect, returning a best result of 1m at 7.3gpt gold from 185m.

Gold mineralisation is coincident with a conductor, which is a target for further exploration.

Musgrave is earning up to 80% of the ground from Silver Lake Resources.

Shares in Musgrave jumped nearly 35% to A3.5c.
