A handwritten signature in black ink that reads "Donald Stephens". The signature is written in a cursive, flowing style.

DONALD STEPHENS
COMPANY SECRETARY

About Musgrave Minerals

Musgrave Minerals Ltd has a massive exploration footprint in the Musgrave Province in South Australia, with tenements covering an area of approximately 50,000km² – which equates to approximately 5% of the State. The Company has a powerful shareholder base with six mining and exploration companies participating as cornerstone investors.

The Musgrave Province is one of the last under-explored exploration frontiers in Australia and is prospective for a number of commodities. The centrepiece is the recognition of, and access to, the unexplored potential of the Giles Complex, a 1080Ma aged mafic-ultramafic layered intrusive complex that hosts significant nickel and copper sulphide deposits (such as the Nebo/Babel deposit) in the Western Australian portion of the Province.
