

ASX RELEASE

6th March 2013

ASX: MGV

Appointment of Exploration Manager

Musgrave Minerals Limited (Musgrave Minerals) (ASX: MGV) is pleased to announce the appointment of Mr Ian Warland as Exploration Manager. Mr Warland will be responsible for Project Generation including the identification, assessment and acquisition of new projects to complement and enhance MGV's portfolio of projects in South Australia. He will also assist the Managing Director with corporate promotion and investor relations.

Mr Warland is a geologist with more than 20 years' experience in the industry and a strong history of exploration and discovery success. He has had a wealth of experience in base metals, gold and minerals sands exploration in Australia and overseas through roles at Iluka Resources Limited, RGC Exploration, and Pancontinental Mining. Prior to joining Musgrave Mr Warland was Manager Geology Eucla Basin at Iluka Resources Limited where he was instrumental in the discovery of several mineral sands deposits, including the world class Jacinth and Ambrosia mineral sands deposits in SA.

Mr Warland won the University Medal when he graduated from the University of Technology Sydney with First Class BSc Honours in 1991. He is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM).

Dr Justin Gum will move to the position of Principal Geologist, where his strong technical skills can be fully utilised on Musgrave Minerals' existing projects in the Musgrave and Gawler Craton regions of South Australia.

Managing Director Mr Rob Waugh said "The addition of Ian to the Musgrave Minerals adds considerable depth to our exploration team. His appointment will complement Justin's expertise to ensure Musgrave Minerals' delivers on its growth and business aspirations in the next two years".
